

# Enterprise Website Hosting

High Security Web Hosting for Small to Medium Sized Businesses

## KEY BENEFITS

- **Secure:** Guaranteed uptimes and access protection
- **Cost-Effective:** Save resources needed to develop and maintain in house webservers as well as the human resources and labor needed for maintenance
- **Powerful:** More than enough for corporate websites to handle web traffic and website display content
- **Convenient:** Hosted management of web servers with ftp upload availability
- **Support:** 24/7 Chinese Mandarin and English language support

CHT Global is the wholly-owned US subsidiary of Chunghwa Telecom, the largest telecommunication company in Taiwan. Since 2002, CHT Global has helped numerous enterprises achieve their targeted goals while reducing customer side complexity by providing industry leading multi-site network solutions through its global backbone infrastructure and world-class service.

For additional products and services information, please contact CHT Global at 1-888-998-1898, or visit [www.net2mail.chtglobal.com](http://www.net2mail.chtglobal.com).

Ready to establish your online presence? CHT Global is helping small to medium sized enterprises build their web presence through industry leading web hosting technology that emphasizes security. With many small businesses desiring to focus on their core competencies and building their business rather than developing or managing in-house web hosting servers, CHT Global's enterprise web hosting solution is perfect for your needs.

## Hosted Management

For small businesses who don't have the resources to invest and manage web server hardware and applications, website hosting is a great alternative. All that needs to be done is have the website uploaded and updated, while the servers themselves and the underlying operating system gets maintained by CHT Global. Mid-sized enterprises can also benefit from outsourcing their website to free up IT resources to be directed else where.

## Guarantees

Hosted inside some of the best data centers, there is guaranteed SLAs and uptime as these data centers are built in with HVAC systems, uninterruptible power supplies, fire safety, fast network connection, and more. Because of this, CHT Global is able to guarantee the uptime required by a growing business, where uptime is so crucial for customer acquisition and education. And in the end, with guarantees enterprises can be worry-free as they devote greater focus on more important and mission critical tasks and agendas.

## Security

In today's internet world, websites can be hacked or attacked, which is a cause for great concern and could cripple a business for hours if not a few days. CHT Global's web hosting service is maintained with the most up-to-date virus protection and set with the highest security protocols. FTP upload and download of files can only be initiated from set IP Addresses designated by the user.
